

BIRO KLASIFIKASI INDONESIA

Laporan Asesmen Persetujuan Kawat Las Assessment Report for Approval of Welding Consumables

No. Laporan : 1262-TP/C1/2010
Report No.

1. Informasi Umum *General Information*

1.1 Perusahaan : Zigong Atlantic Welding Wires Co., Ltd.
Company

Alamat : No.66, Renmin Road, Daan District Zigong, Sichuan, China.
Address

No. telepon : 0086 813-8253827/8253829 No. fax : 0086 813-8253828
Telephone no. *Fax no.* Email: dxyzxb@163.com
Email

Elektroda/Kawat : Pembuat
Electrode/Wire *Manufacturer* Penyalur
Supplier Distributor
Distributor Pemegang lisensi
Licensee (where applicable)

Pemberi lisensi : -
Licensor

Serbuk Fluks / Gas Pelindung : Pembuat
Flux Powder / Shielding Gas *Manufacturer* Penyalur
Supplier Distributor
Distributor Pemegang lisensi
Licensee (where applicable)

Pemberi lisensi : -
Licensor

1.2 Jumlah karyawan : 110 persons (technique employees)
No. of employees

Jumlah karyawan pada departemen inspeksi (QA/QC): 30 persons
No. of employees in (QA/QC) inspection department

1.3 Kepala departemen produksi : Zeng Zhichau
Head of production department

Kepala departemen QA: He Rongsheng
Head of QA department

Kepala laboratorium / pengujian material (jika ada) : Li Duorong
Head of the laboratory / materials testing (if any)

Apakah ada departemen yang bertanggung jawab terhadap penyelesaian klaim? Jika ada, sebutkan penanggung jawabnya :
Is there any department responsible for the settlement of claims? If yes, please mention the person who responsible for it

Xiao Huachang

1 Ya
Yes 2 Tidak
No 3 Tidak berlaku
Not Applicable

2. Lingkup Permohonan
Scope of Application

2.1 Kawat las:
Welding consumables

Merek Dagang ¹ <i>Trademark¹</i>	Merek ¹ <i>Brand¹</i>	Grade mutu & simbol tambahan <i>Quality grade & added symbol</i>	Posisi pengelasan <i>Welding position</i>	Arus pengelasan & polaritas <i>Welding current & polarity</i>	Ukuran (diameter & panjang) <i>Dimension (diameter & length)</i>	Bahan dasar yang dilas <i>Base material to be welded</i>	Kondisi perlakuan panas (pasca pengelasan) <i>(Post-weld) heat treatment conditions</i>
Atlantic	CHW-50C6SM	3YS	(2) PA (d), PB (h), PC (h-v), PD (h-o), PE (o), PF (v-u)	DC +	Φ 0,8; Φ 0,9; Φ 1,0; Φ 1,2; Φ 1,6	Mild Steel, High Tensile Steel	-

¹ Hanya yang diminta dalam lingkup persetujuan yang disebutkan.
Only applicable scope of approval is to specify.

- 3. Pemeriksaan
Inspection**
- 3.1 Tanggal pemeriksaan : **14.07.2010 - 16.07.2010 (witness by other Class on 23.03.2010 – 26.03.2010)**
Date of inspection
- 3.2 Pabrik / departemen yang dikunjungi : **Flux-cored Wire Factory, Wire Factory, Electrode Factory & Technical Center Shops / departments visited**
- 3.3 Semua fasilitas yang diperlukan untuk proses pembuatan yang tepat sesuai dengan standar teknik umum tersedia
All facilities are available, which are necessary for a proper manufacturing corresponding to general technical standards [1]
- 3.4 Jika ada penambahan dan/atau tindakan perbaikan yang diperlukan, sebutkan!
If any supplement and/or corrective action are required, what kind! [2]
-
- 4. Jaminan Mutu
Quality Assurance**
- 4.1 Bagian sistem kendali mutu terpisah dari manajemen produksi
Quality control system is independent of the production management [1]
- 4.2 Tersedia deskripsi tentang sistem manajemen mutu
Description of the quality management system is available [1]
- 4.3 Tersedia instruksi pengujian tertulis
Written testing instructions are available [1]
- 4.4 Mesin uji dikalibrasi ulang secara periodik
The testing machines be periodically recalibrated [1]
- 4.5 Institusi yang melaksanakan kalibrasi ulang
Institution effects the recalibration
- National Institute of Measurement and TestingTecnology**
- 4.6 Jika ada pihak laboratorium luar yang digunakan untuk pengujian, sebutkan!
If any external laboratories commissioned with tests, please stated! [2]
-
- 4.7 Laboratorium / departemen inspeksi yang dikunjungi
Laboratories / inspection departments visited
- 4.7.1 Pengujian mekanik dan teknologi
Mechanical and technological testing [1]
- 4.7.2 Kimia
Chemical [1]
- 4.7.3 Pengujian tak rusak
Non-destructive testing [1]
- 4.8 Tersedia semua fasilitas yang diperlukan untuk kendali mutu yang tepat sesuai dengan standar teknik umum
All facilities are available which are necessary for proper quality control corresponding to general technical standards [1]
- 4.9 Ada personil yang berkualifikasi untuk melaksanakan pengujian
Qualified personnel is available for carrying out the tests [1]
- 4.10 Jika ada penambahan dan/atau tindakan perbaikan yang diperlukan, sebutkan !
If any supplement and/or corrective action are required, what kind! [2]
-
- 4.11 Jika ada klaim dari pihak konsumen terkait dengan kualitas kawat las yang dimintakan Persetujuan, sebutkan !
If any claim from customers related to quality of welding consumables for which approval is sought, please specify ! [2]

- 4.12 Klaim ditindaklanjuti dan tindakan perbaikan yang diperlukan dilakukan.
The claim(s) are followed-up and corrective action been conducted as required.

3

5. Pengadaan bahan baku
Raw material procurement

- 5.1 Jika ada bahan baku / produk setengah jadi yang dibeli, sebutkan!
If any raw materials / semi products to be purchased, please stated!

2

- 5.2 Nama dan no. persetujuan penyedia bahan baku
Names and approval no. of the raw material suppliers

- 5.3 Ada sistem pemeriksaan yang memadai terhadap penerimaan barang
An adequate receiving inspection is available

1

6 Pengujian kawat las
Welding consumables testing

- 6.1 Tersedia semua fasilitas yang diperlukan untuk persiapan, pengelasan, pemanasan awal
All facilities necessary for the preparation, welding, preheating,
 perlakuan panas pasca las, pembubutan dan pengujian produk
post heat treatment, machining and testing of the products are available.

1

- 6.2 Juru las berkualifikasi dengan sertifikat yang masih berlaku
Qualification tested welders with valid certificates are available

1

Nomor Sertifikat <i>Certificate number</i>	Nama juru las <i>Welder's name</i>	Badan sert. dan standar uji <i>Cert. body and test standard</i>	Grade material <i>Material grade</i>	Periode masa berlaku <i>Period of validity</i>
CQH080176	Liu Yong Jun	CCS	MnR(KI-A36)	07.05.2011
CQH080172	Song Jun Yang	CCS	MnR(KI-A36)	07.05.2011
CQH080178	Lan Quan	CCS	MnR(KI-A36)	07.05.2011
CQH080173	Huang Zhihua	CCS	MnR(KI-A36)	07.05.2011
CQH080180	Qiu Zhiming	CCS	MnR(KI-A36)	07.05.2011

- 6.3 Uji kualifikasi juru las
Welder's qualification tests

1

7. Dokumentasi
Documentation

Dokumen berikut :
The following documents

A = terlampir
are attached

H = tersedia di Kantor Pusat
are available at Head Office

R = telah ditunjukkan untuk ditelaah
have been presented for review

- | | |
|--|---|
| 7.1 Deskripsi tentang fasilitas produksi
<i>Description of the manufacturing facilities</i> | <input type="checkbox"/> A <input type="checkbox"/> H <input checked="" type="checkbox"/> R |
| 7.2 Deskripsi tentang fasilitas pengujian
<i>Description of the testing facilities</i> | <input type="checkbox"/> A <input type="checkbox"/> H <input checked="" type="checkbox"/> R |
| 7.3 Pedoman manajemen mutu
<i>Quality management manual</i> | <input type="checkbox"/> A <input type="checkbox"/> H <input checked="" type="checkbox"/> R |
| 7.4 Bagan organisasi
<i>Organisation plan</i> | <input checked="" type="checkbox"/> A <input type="checkbox"/> H <input type="checkbox"/> R |
| 7.5 Data tentang proses produksi dan kendali mutu kawat las
<i>Data related to manufacturing process and quality control of welding consumables</i> | <input type="checkbox"/> A <input type="checkbox"/> H <input checked="" type="checkbox"/> R |
| 7.6 Data tentang metode penyimpanan kawat las
<i>Data on storage method of welding consumables</i> | <input type="checkbox"/> A <input type="checkbox"/> H <input checked="" type="checkbox"/> R |

- 7.7 Data tentang penandaan pada kemasan
Data on packaging marking A H R
- 7.8 Dokumentasi hasil uji saat ini
Documentation of current test results A H R
- 7.9 Dokumen lain
Other documents 1

8 Persetujuan
Approvals

Telah diberikan oleh badan inspeksi lain
Already granted by other inspection authorities

Badan inspeksi <i>Inspection authority</i>	Tanggal <i>Date</i>	Jenis dan lingkup persetujuan <i>Kind and scope of approval</i>
Germanischer Lloyd China Classification Society	23.03.2010 – 26.03.2010 23.03.2010 – 26.03.2010	Manufacturer & product approval Manufacturer & product approval

9 Evaluasi oleh Surveyor BKI
Evaluation by BKI-Surveyor

- 9.1 Pembuktian sifat material telah dilakukan melalui :
Proof of material properties has been effected by

Approval

- a. pengujian di bawah pengawasan BKI
under the supervision by BKI
 b. dari pengakuan badan inspeksi lain
Acknowledgement of the approval tests of other inspection authorities

- 9.2 Pemeriksaan kawat las yang diambil dari produksi saat ini
Inspection of welding consumables taken from current production

- 9.2.1 Tipe dan No. produksi
Type and Lot No..

CHW-50C6SM and Lot No. 10-5004

- 9.2.2 Kawat las disimpan dalam kemasan yang baik
The welding consumables are in good packaging

- 9.2.3 Kawat las memperlihatkan adanya cacat (noda, karat, fluks pecah, bengkok, dll.)
The consumables show any defect (stain, rust, flux fracture, bent, etc.)

- 9.2.4 Prosedur pengujian yang diterapkan
Testing procedures applied

- | | |
|--|---|
| <input type="checkbox"/> Uji radiografi
<i>Radiographic test</i>
<input checked="" type="checkbox"/> Uji tarik
<i>Tensile test</i>
<input checked="" type="checkbox"/> Uji impak
<i>Impact test</i>
<input type="checkbox"/> Uji lengkung
<i>Bending test</i> | <input type="checkbox"/> Uji hidrogen
<i>Hydrogen test</i>
<input type="checkbox"/> Uji kekerasan
<i>Hardness test</i>
<input type="checkbox"/> Pemeriksaan makrografi
<i>Macrographic examination</i> |
|--|---|

- 9.3 Apakah pabrik pembuat dapat diberikan persetujuan ?
Whether the manufacturer can be approved ?

Bilamana jawaban tersebut di atas adalah "tidak" sebutkan alasannya!
In case where the answer for above question is "No" please state the reason!

.....

Lain-lain (catatan khusus, bila ada)
Others (special description, if any)

This assessment carried out for transfer of approval for welding consumables (initial approval) without all weld metal test (weld metal test witness by other Class).

TEST REPORT OF WELDING ELECTRODE

No. 1262 -TP/C1/2010

INITIAL / ANNUAL APPROVAL

Manufacturer	ATLANTIC CHINA WELDING CONSUMABLES, INC							
Brand	ATLANTIC			Type:	CHW-50C6SM	GRADE: 3YSM		
Diameter	0,8 – 1,6 mm			Welding process	GMAW (MAG)			
Welding Current	DC +			Welding Position	ALL POSITION, EXCEPT (V-D)			
Place/Date of Test	ZIGONG, 23.03.2010 – 26.03.2010							
1. RADIOGRAPHIC TEST	--							
2. MECHANICAL TEST :								
2.1 Deposited Metal								
Diameter (mm)	Yield Point (N/mm ²)	Tensile Strength (N/mm ²)	Elongation %	Charpy "V" Notch Impact Test		Result		
				Test Temp (°C)	Average Energy (Joule)			
1,6 1,6	441 445	562 565	31,2 30,0	-20 -20	111 95	Accepted Accepted		
2.2 Welding Procedure								
Position	Tensile Strength (N/mm ²)	Charpy "V" Notch Impact Test		Bending Test		Result		
		Test Temp (°C)	Average energy (Joule)	Root	Face			
--	--	--	--	--	--	--		
3. CHEMICAL ANALYSIS OF DEPOSITED METAL								
Element %	C	Mn	Si	P	S	Remarks		
Dia. 1,6 mm	0,103	1,10	0,64	0,013	0,012	--		
Dia. 1,6 mm	0,084	1,05	0,59	0,012	0,011	--		

PT. BIRO KLASIFIKASI INDONESIA
No. 1262 – TP/C1/2010

INITIAL / ANNUAL APPROVAL

4. HYDROGEN TEST : NOT REQUIRED

5. FILLED WELD TEST :

Macro Section Test : --

Breaking Test : --

Hardness Test : --

Base Metal : --

Weld Metal : --

HAZ : --

6. HOT CRACKING TEST :

Filled Weld	Visual Inspection for Cracks	Fracture Inspection for Cracks	Result
1 st filled weld	--	--	--
2 nd filled weld	--	--	--

7. REMARKS : --
